154 each incentive award program shall be elected by and from the college/unit committee. The chairperson
155 shall charge the committee that members shall only consider the merits of the application. No additional
156 outside information or discussion of position, e.g., instructor vs. tenure track **employee** ~~faculty~~, past
157 awards, current salary, etc., may be considered. The committee shall review the award applications and
158 shall submit a ranked list of recommended employees to the dean or dean's representative. In ranking the
159 applicants, committee members shall only consider the merits of the application. The committee shall not
160 impose any numerical criteria or weightings during the ranking process, and for completed applications,
161 departures from the application specifications may impact but shall not disqualify an application.

162 (a) Each committee member shall review all applications and transmit a
163 preliminary ranking to the committee chair. Committee members may rank as many applicants as they
164 deem merit the award, with the highest rank given to the top candidate (i.e., the highest rank equals the

173 be convened to review the applications recommended by the subcommittees. The members of the
174 committee at-large ~~will~~shall discuss the subcommittee recommendations and, finally, use the ranking
175 procedure described above to rank the applications recommended by the subcommittees. In the event of
176 ties, the ties ~~will~~shall be broken as described below.

177 (c) The committee chair shall convene the committee and review their initial
178 rankings. Discussion shall be limited to information contained in the application and may focus on
179 applicants with a large variance in rankings, to try to identify the cause of and reduce disparate rankings.

180 (d) Following this discussion, the committee shall use a secret ballot to rank
181 candidates using the procedure stated above in this section.

182 (e) A majority of voting committee members present must rank an applicant
183 for that employee to be eligible for an incentive award.

184 (f) The applicant with the highest mean score ~~will~~ shall have the highest
185 priority for an incentive award, the applicant with the next highest mean score the next highest priority,
186 and so on, until all applicants who received a majority of votes are ranked in order.

187 (g) In the case of a tie vote that must be resolved to allocate available
188 awards, the committee shall vote on just the tied candidates. The candidate with the most votes shall be
189 ranked ahead of those with fewer votes. Voting shall continue using this procedure until all such ties are
190 resolved.

191 (h) The committee chair ~~will~~shall transmit this ranked list to the dean or
192 dean's representative, or unit head who approves the awards. If the selection committee awards fewer
193 than the number of awards available or if the dean or unit head does not approve an award from the list
194 submitted by the selection committee, then the award(s) shall be retained in the same college or unit for
195 one additional cycle before it is returned to the overall pool for apportionment.

196 ~~(i) If the number of previously awarded (i.e., awarded prior to 2018) but
197 relinquished (e.g., due to retirement or resignation) TIP and RIA awards exceeds fifty after the 2017
198 award cycle, then the relinquished pre-2018 awards beyond fifty shall be pooled at the university level,
199 along with the new awards for that year, and distributed in proportion to the number of eligible faculty in
200 each college. No incentive awards issued after ratification of this document that are relinquished shall be
201 eligible for re-issuance (future awards are not pooled for redistribution)~~

202 (i) For purposes of TIP/RIA selection as stated above, "college" shall also
203 include the group of employees whose primary assignment is in the College of Undergraduate Studies,

204 the College of Graduate Studies, an institute or center. These employees shall be grouped together for
